## THE GRATEFUL MILLINER.

A gentleman from one of the provinces went to a fashionable establishment in Paris to purchase a bonnet for his wife, which he requested the mistress of the establishment to select for him. The lady selected a very elegant hat, and, when the gentleman inquired the price, she answered that it had been paid for. The gentleman was much surprised, and desired an explanation.—"Sir," said the lady, "ten years ago you bought some apples of a little girl in the streets of Paris. The poor child had not enough to change the gold piece which you gave her, and when she mentioned that her mother was very sick at home, you told her to keep the money till she had enough to change it. The little apple merchant now stands before you. I have married a rich man, and must beg of you to accept the hat as a testimony of my gratitude for a gift which saved my mother from much suffering.—London paper.

King James's "Blast against Tobacco" was nothing to what the editor of the Boston Courier can do. Hear him:—

"A chever and smoker is the greatest nuisance in creation. He infects the atmosphere of a house with his stinking breath—an effluvia ten thousand times more disgusting than the breath of a million of drunkards. If any doubts, let him go to the professed temperance hotels, where wine and all stronger liquors are prohibited, and breathe for a few moments the air that surrounds the temperate guests, and look at the pots of tobacco juice, squirted from their mouths, and sending up poisonous vapor, thick enough to be cut with a jack knife, and then say what he thinks of the decencies of temperance hotels. 'Lives of valuable citizens,' indeed! The life of a tobacco-chewer and smoker is not worth two Bungtown coppers, and the sooner the world is rid of them the better."

**Pretty Good.**—A lady was lately delivered of twins, a boy and girl; the girl having been born first, it was decided to christen her Telegraph because she was in advance of the male.

# THE DAILY NEWS.

Newport:

TUESDAY MAY 23, 1847.

BY O. F. JACKSON, 31, THAMES-ST.

ADVERTISERS will please bear in mind that the circulation of the DAILY NEWS is greater than that of any other paper published in Newport, or the combined circulation of any two papers issued from one office. As one proof of this fact, the list of letters remaining in the Post Office are advertised in THIS PAPER, as BY LAW REQUIRED.

FOURTH OF JULY CELEBRATION.—As the time is rapidly approaching when our citizens will decide in regard to the celebration of the anniversary of American Independence, we desire to say a few words in relation to the mode which we should like to see adopted on the occasion. We should very much like to have an old fashioned, general turn-out on that day, of all classes, ages and sexes, each one joining heartily in the festivities of the day.

We hope the Town will make a liberal appropriation, and we think we said enough a few days since, to convince any reasonable man, that it is the best policy so to do, for in this way we keep all our own people, and the money which they would spend, if we had no celebration, at home; and then, if we make an attractive occasion of it here, we shall also draw others to Newport, to participate in the ceremonies and witness the scenes. Then, in addition to the appropriation by the Town, a further sum can be raised by private subscription, and in this way we shall obtain a sufficient amount of money to ensure an excellent celebration, equal to that of any other place.

We would then propose inviting the Military Companies from Bristol, Warren, Wickford and East Greenwich to join us in the ceremonies of the day, and if they accept, as they undoubtedly would, a great many people would come down with them in the steamboats, and all this will be a decided benefit to our town. Then let us have a procession composed of the Military, Fire Companies and other associations, and after marching through the streets, go to one of the churches and listen to the usual exercises on such occasions. In the evening, we can have a grand display of Fire works, and this will finish the doings of the day; all of which may be carried through in a highly satisfactory manner, if our citizens are only so disposed. Let there be a judicious committee appointed, who are in favor of the plan, and who will exert their energies and best endeavors for its consummation. It would be the height of folly to make an appropriation, and then appoint persons on the Committee of Arrangements who are indifferent on the subject, or, what is infinitely worse, who are decidedly opposed to all demonstrations whatever, particularly if it costs a cent.

In all probability, one or more of the Fire Companies from Fall River will also visit Newport that day; they are uniformed and have paid much attention to their discipline and drill.

As we have said on another occasion, we know that there are some who are utterly opposed to all demonstrations of this kind, on the ground that they are useless and foolish; a like remark might be made relative to all anniversaries and celebrations. But we do not think that such objections merit a reply, because they arise from small and contracted minds, and are not even based upon common sense. Others object on the ground of prudence, and say that the money had better remain in the Treasury, and be appropriated for other and more useful purposes. The small sum which we desire to see expended for this purpose might remain there; it is true; but then, more than five times that amount would be carried out of the town and spent elsewhere. Whereas, if our plan is adopted, that sum remains and as much more is brought here; this is just the difference. It is a benefit to every one to have the celebration here, as we propose, and most especially to all our store keepers, for their trade is always good on such occasions. Last year, there was no public celebration, of any account, in Newport, and the result was that very many of our citizens went elsewhere. The Steamer Perry took something like five hundred dollars from her passengers that day, and, of course, all of them spent some money in the places where they went. Now we propose to keep all this in our own community, and to add a good deal more to it.

We say again to all who feel an interest in the subject, and particularly to the storekeepers, attend the Town Meeting, and vote for an appropriation that will enable us to have a good celebration; and also vote for a committee of enterprising young men, who are friendly to the subject, and you may rely upon it, you will be voting money into your own pockets, and at the same time, injure no one, for you are all tax payers, and consequently one is as much interested as another, in the sum expended.

## SEVEN DAYS LATER FROM EUROPE.

The steamship Caledonia arrived at Boston on Sunday morning from Liverpool, in a passage of fifteen days.

There is nothing of an exciting nature in the news brought by this steamer—business seems to be improving—and on the whole the news is rather cheering.

ENGLAND.—The European Mail states that in the House of Commons on Thursday night Lord Palmerston announced that Prussia and Denmark have accepted the mediation of Great Britain, and that negotiations are now going on for the amicable settlement of all the questions in dispute. The importance of this announcement both politically and commercially, can hardly be overrated.

IRELAND.—Mr. W. S. O'Brien, with Mr. Mitchell and Mr. Meagher, visited Limerick, for the purpose of promoting the agitation of the Young Ireland party. The population of that county had been greatly excited by inflammatory addresses circulating by the Old Ireland party, stigmatising Mr. Mitchell as the "calumniator of O'Connell," and as the "slanderer of the Catholic religion;" and the effigy of Mitchell, with a rope round his neck, was borne through the streets of Limerick.

In this state of feeling of the Old Irelanders a source was given by the Sarsfield Club Young Irelanders to Messrs O'Brien, Mitchell and Meagher. A frightful riot was the consequence. The police and the military were called out: the members of the club fired and one man was killed. The house having been broken into by the O'Connellites the windows and doors were demolished, and Mr. O'Brien only escaped after having received some violent contusions on the face.

Mitchell and Meagher contrived to elude the populace by getting away in disguise. In fact, if it had not been for the efforts of the military under General Napier, who interfered between the parties, the consequences would have been much more serious.

In consequence of the late riotous proceedings at Limerick, the Lord Lieutenant has "proclaimed" the county and the city of Limerick under the act for prevention of crime in Ireland and further, has issued a proclamation, warning the people against taking part in the proposed Council of three Hundred, or the formation of the contemplated association called the National Guard.

FRANCE.—The examination of the election returns was concluded at a late hour on the night of the 27th ult., at the Hotel de Ville. From 9 o'clock in the morning of that day, detachments of the National Guard lined the square in front of the building. In the hall of St. John an immense platform was erected, with benches and tables for the scrutators. About two hundred persons were employed at this bureau.

It thus appears that the 35 members of the department of the Seine may be classed as follows.—Moderates, 25; ultra democrats, &c., 4; doubtful, 5. There are among them 2 ex-deputies, 2 journalists, 9 ouvrier, or operatives, 1 Catholic clergyman, and 1 Protestant clergyman.

Riots of a very serious nature had broken out in several places in connection with the elections. That at Rouen was the most considerable. During the night of the 27th ult the rioters began the barricade system, to which Rouen, from the narrowness of the streets, is very favorable, and next morning the conflict became very serious.

The plan of Constitution that is deemed most likely to be successful is one founded on the Constitution of the United States, with two chambers and a president, and a vice president, the duration of the presidency to be five years.

A postscript in the European Times has the following:

We have received details of the proceedings at the opening of the French Chamber on the 4th inst., which were highly interesting and passed off satisfactorily. The members of the Provisional Government, distinguished by tri-colored sashes, went in procession to the Chamber, from which all persons having arms were excluded. Loud applause greeted them on the way, and on their arrival in the Chamber.

M. Dupont was the first of the Government who entered, followed closely by Lamartine and the others. M. Audry de Puyrevel, senior deputy, took the chair as president; after which M. Dupont ascended the tribune, and delivered a short speech, which was loudly applauded.

Some business was gone through in the after sittings, but it was not expected that the President of the Republic would be declared till next day.

Germany has been the scene of several serious riots.

LATER FROM YUCATAN.—Brig Halcyon Captain Morton, in 23 days from Laguna arrived at Boston on Saturday morning, from Laguna on the 27th of April, and confirms the intelligence of the treaty, and that the war between the Indians and whites was substantially at an end. U. S. steamer Scorpion, which had been despatched to Campechy for the purpose of bringing away these families who wished to leave that place from fear of the Indians, had returned empty, as the Campechians were satisfied that they should experience no further trouble. There was considerable shipping in port at Laguna. Captain Morton reports there four English and seven American vessels.

INSURRECTION AT PORT AU PRINCE.—The schooner Stranger, Capt. Tobey, arrived at New Orleans on the 11th inst., having sailed from Kingston Jamaica, on the 30th ult.—She brings the news of an insurrection among the blacks at Port au Prince, who were murdering the browns. Some accounts represent that as many as two hundred were killed in one night. There appeared to be a determination to exterminate the browns. The British Consul had sent to the Commodore on the West India station for a vessel to protect British interests.

Yesterday morning everybody in Louisville thought it was snowing. The whole atmosphere of the city seemed densely filled with snow-flakes. These turned out to be gnats or flies, little black-bodied insects with white wings, which soon settled by millions, billions, trillions, quadrillions, and quintillions, upon all the houses and upon the whole surface of the ground. A portion of our citizens seemed considerably alarmed—some thought it an omen of the cholera.—Louisville Journal.

MODEL ARTIST.—The New York Star says that a respectable looking woman applied to the Police to arrest her three daughters, all under the age of eighteen, who, contrary to her orders and wishes, were exhibiting themselves as model artists, and occasionally are on the high road to ruin. Measures were taken for their relief.

Sarah Jane Pinkerton made her appearance in the Boston Supreme Court and pleaded not guilty to the charge of murdering her mother. She is not more than twelve or thirteen years old, and says that her object was to make her mother a little sick to give her a distaste for ardent spirits. Such was probably the case, as the girl is too young to be hardened in depravity, and seems to feel no trepidation at her present condition.

THE MORMONS.—The St. Louis Republican of May 10th says that letters have been received from persons connected with the Mormon colony at the city of the Salt Lake, which represent the colony as being in a comfortable and prosperous condition. Last fall they sowed about 3000 acres of wheat.

A letter from Oregon city, dated October 6th, announces the recent arrival of more than 300 wagons and states that 1000 were on the road. Several capitalists were among the new comers. A steam engine and a boat builder were greatly needed. Saw-mills were in active operation all over the country. Cooking utensils were scarce, and a good foundry man was greatly wanted. An Almanac for 1848 has just appeared.

Two Brazilian slave schooners, one with four hundred slaves on board, and the other with only the crew, but fitted up as a slaver, arrived at Sierra Leone on the 15th of 4th. prizes to British men-of-war.

The amount of money required for the ordinary yearly expenditures of the city of Boston, is \$1,121,655.

In New York city, a young man named Hiram Garrett, only 19 years old, was on Thursday convicted of bigamy, he having when only 16 years old married Mary Jane De Groot, and in April last married Mary Eliza Decker, his first wife being still alive. He was sentenced to the State prison for two years.

NEWPORT VICTUALING HOUSE. WM. W. MORRIS, announces to the public, that he has opened a Victualing House in the premises lately occupied by Thomas Sherman, in Market Square, where he intends to be supplied with the best Oysters, Meat of every kind, Pastry, Cakes, &c. Hot suppers served up in good style, and every attention paid to those who may patronize the establishment. Captains of vessels and sea-faring men generally will find this a very convenient place to stop for a dish of Oysters or any thing the market affords. Apr 24-17.

MOST EXTRAORDINARY WORK: THE MARRIED WOMAN'S Private Medical Companion, By Dr. A. M. MAURICEAU, Professor of the Diseases of Women.

Sixth ed., 18mo, pp. 250. Price \$1. Twenty-five thousand copies sold in Three Months. Years of suffering, of physical and mental anguish to many an affectionate wife, and pecuniary difficulties to the husband, might have been spared by a timely possession of this work.

It is intended especially for the married, or those contemplating marriage, as it discloses important secrets which should be known to them particularly. Truly, knowledge is power. It is health, happiness, affluence.

The revelations contained in its pages have proved a blessing to thousands, as the innumerable letters received by the author will attest. Here, also, every female can discover the causes, symptoms, and the most efficient remedies, and certain mode of cure, in every complaint to which her sex is subject.

On the receipt of One Dollar, the "Married Woman's Private Medical Companion" will be sent (mailed free) to any part of the U. S. All letters must be addressed, post paid, to Dr. A. M. Mauricau, Box 1124, New York City. Publishing Office, 129 Liberty street, New York.

Travelling Agents are informed that a few districts in Mass., and two other Eastern States, are yet unengaged. Application received [post paid] as above. Apr 21

ATTESTED BEFORE THE MAYOR OF NEW YORK CITY. Consumption and Affection of the Litter cured of Twenty Years Standing.

CITY of New York, July 24, 1847.

THIS is to certify that I, Nelson Larabee, of Jersey City, have for a period of twenty years been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system, and have been pronounced incurably consumptive. Neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the progress of my disease, when I was persuaded to try Dr. W. Vandersmith's Indian Cough Balm and Lung Balm, by the aid of which all my symptoms have been removed and I have been wonderfully restored to the blessings of health and the prospect of a prolonged existence; in gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARABEE, Jersey City. Sworn to before me, this 21st day of July, 1847.

WM. V. BRADY, Mayor of the City of New York.

P. S.—If any person wishes to see me relative to my disease, they can call on board the New Jersey Ferry Boat foot of Courtlandt-st., N. Y.

Remarkable Cure of Mrs. Flemington of Fishkill, New York, April 1, 1848.

Dr. Vandersmith:—My wife has been afflicted for seven years, with an affection of the lungs, accompanied with a pain in the chest and side, difficulty in breathing, and general debility. I employed the best medical skill, and they finally pronounced her lungs diseased, and consequently despaired of effecting a cure. I was induced, by the representation of a friend, to try Dr. Vandersmith's Indian Cough Balm and Lung Balm. I sent to New York for the medicine, she was confined to her bed; her cough was incessant. After she had taken the medicine, the third day her cough abated considerably; she expectorated a great quantity of yellow matter; her difficulty in breathing subsided. Our family physician, who formerly attended her, called to see her, and he said she was improving; and advised her to continue the medicine. Although she was much emaciated from the disease, she has been restored to health, and is as able to attend to her domestic duties as she ever was. I can with confidence recommend Dr. Vandersmith's Indian Cough Balm and Lung Balm to Consumptives.

RICHARD FLEMINGTON, Fishkill, N. Y. Sworn to before me, this 1st day of April, 1848.

## Phalon's Chemical Hair Invigorator.

A REMEDY for all diseases of the Hair, and is restorative in all cases where baldness is not beyond the reach of art.

Naught with beauty can compare, With soft, glossy locks of hair; If not endowed with such by nature, Use Phalon's Hair Invigorator.

The subscriber having devoted a considerable portion of his time for twenty years to the study of the skin and the human hair, also the best means of treating and curing the same, and having, in the course of his experiments made various changes and improvements in the different articles approved as the best for such purposes, has at length, after laborious research and deep investigation, succeeded in bringing to perfection a composition, the virtues of which he challenges the world to excel.

The Chemical Hair Invigorator is composed of a number of vegetable ingredients of opposite qualities, and approved by the highest medical standard, the secret of blending and combining, which is known only to the subscriber, who has spared neither pains nor expense in bringing it before the public.

The Invigorator is an article in which a cleansing and purifying wash is beautifully blended with a most delicate, silky and glossy moisture of the hair never before attained, yet free from animal grease or essential oils. It cleanses the pores of the skin, causes a healthy action of the blood vessels, nerves, &c., which free the hair, thereby preventing baldness and gray hair, entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl, and keeps it so—will positively change the hardest hair into the most soft and healthy and glossy state, also imparts to it a darker color, and a free use of it will keep both the skin and hair in a healthy and luxuriant state until the last period of life.

Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moistened with the Invigorator can be dressed in any required form, so as to preserve its place whether plain or in curls. When used on children's heads it lays the foundation of a good head of hair.

Invented and prepared by EDWARD PHALON, professor of Wig Making and Hair Cutting, 61 Broadway, New York.

A treatise on the Anatomy and Physiology of the Hair, with directions for preventing baldness, removing dandruff and preserving the natural beauty and softness of the hair.

Price 50 cents per bottle—large size, \$1. For sale wholesale and retail by GORTON ANDERSON, No. 151 Thames-street, Newport, and by J. Balch & Son, 42 South Main-street, Providence, and by druggists and hair dressers generally in Boston. nov 16-1y15

## Coggeshall & Bliss' Patent Cooking Range.

THE subscriber has just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public.

This Range may be set in the ordinary fire place, and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.

Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.

This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it is constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Oven 12 inches wide by 21 deep, which cannot be surpassed for baking.

The subscriber has one of these Ranges in operation at his store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. He also keeps constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &

## Mutual Benefit Life Insurance Co.

(Office No. 21 Wall-st., N. Y.)

*Authorized by the State of New York, and the System of Life Insurance which is successful operation in this country.*

1. *Those in good health, of the proper age, and of sound constitution, will be insured at the lowest rate of premiums.*

2. *The premium, if over \$50, can be paid one-fourth in each, and three-fourths in a secured note at 12 months, bearing 6 per cent. interest; and subject to assessments if required, or it may be paid weekly, monthly, or quarterly.*

3. *Annual division of profits is scrip certificates which bear 6 per cent. interest, and if required a loan of two-thirds on the scrip will be made in cash—or the profits can be added to increase the sum insured.*

4. *No persons are liable beyond the amount of their premiums.*

5. *Married women may insure the lives of their husbands, secure from any demands of their creditors, if the premium does not exceed \$300 per annum.*

6. *Creditors may insure their debtors; or debtors themselves, for the protection of creditors.*

7. *An insurance can be made so that the sum insured will be paid on attaining a specified age, or so near in the event of death.*

8. *All claims on policies will be paid three months after notice and proof of death.*

9. *No risk will be taken on any one life exceeding \$5000, until the surplus profits amount to \$50,000; then the amount of risk on a single life will be gradually extended as the funds of the Company augment.*

10. *No Director or Officer can obtain a loan of the Company.*

11. *When the net profits of the Company amount to \$300,000, the excess will be applied towards the redemption of Scrip, giving priority to that first issued; but the amount of \$200,000, in addition to the reinsurance fund, will be kept as a permanent fund, in which the members have a pro rata interest.*

12. *The funds of the Company to be invested by the Finance Committee in bonds and first mortgages on unencumbered real estate, the actual value of which is twice the amount loaned—or in stocks of the United States, or of the States of N. York, New Jersey, Massachusetts, and Maine, or loaned to members on their Scrip.*

13. *No part of the profits is withheld, or diverted from the assured in any way.*

14. *There is no stock or loan, either nominal or real, to pay interest for; the company having ample capital in the premiums received.*

15. *It enables a man to provide for a wife and children, in such a way, that although he may lose all, they are safe; and all persons, whether married or unmarried, to provide for old age, sickness, and want, as well as for death.*

16. *It does not reckon the assured a year older than he is—but from six months less, to six months more, so as to equalize the same between all parties.*

17. *It pays no directors, auditors, or solicitors.*

18. *A portion of the directors and the officers are chosen yearly, and the members vote according to interest.*

19. *The assured can surrender the policy at any time after a term of years, and receive its equitable value.*

20. *Every precaution is taken to prevent a forfeiture of policy.*

The Mutual Benefit Life Insurance Company, is authorized by its charter to make all and every Insurance appertaining to or connected with Life risks, of whatsoever kind or nature, and will grant annuities and make endowments, as by the Act of Incorporation, passed the 30th January, 1843.

The Directors of this Company, deeply impressed with the very great, useful, and growing importance to the community at large of Life Insurance, would call the attention of the public to the following observations and principles, as intended to explain to them its peculiar advantages, and the particular features of this valuable institution. It is seen above how extensive the privileges are, reaching to every risk appertaining to or connected with life; guarding and supporting infancy to old age, in all grades of professions and trades; orphans, widows and their children, by a small annual investment, on the principle of Mutual Benefit, arising from Mutual Insurance, being a self-protective society. In this there is no Money Stock; the funds or capital arise from premiums paid in when persons make insurance, and these form the means to make payments on policies, grant loans, pay expenses, and yield profits. All persons insured become members, but are not liable beyond the amount of the premiums to be paid by them. The books of the company are open to them, to see that the sums paid, or securities received, are deposited or invested according to the charter, and the net profits, at fixed periods, are divided among them, as hereafter explained. The table of figures, and the rules, are made and calculated with accuracy, after the experience and practice of old English companies, and all persons can see by them how much they have to pay, and that they will be likely to receive. This plan is based on the Savings Bank and Mutual Insurance, after the security of the one, and gain of the other, and is entirely benevolent in its operations; it also embraces a provision for Married Women to insure the lives of their husbands for any amount, the premium of which shall not exceed \$300 per annum, and is secured to them against any demands in law of creditors.

The greatest portion of society, who by daily exertions in industry earn support, as artisans and mechanics, deriving livelihood from personal labor and skill, seldom resort to Life Insurance, in any numbers, for a future provision for their families, though to none would it be so important as to them, who, by sickness and death, may in a day, leave those nearest and dearest to them in poverty. To men in mercantile pursuits and those in professional business of every rank and class, or those who have uncertain or small incomes, and who are not numerous in wealth in the aggregate, and have it in their power to provide against the vicissitudes they are constantly exposed to, Life Insurance is also of the utmost importance; they, and those in lower circumstances, are often deterred from entering into contracts of insurance, as the advantages appear remote—being contingent on death, or ability to pay the premiums.

To assist all such, this Mutual Benefit society has arranged the payment of the premiums, and of returns, in part of the same, as to enable all persons to become members, and enjoy its advantages while living; thus protecting themselves in life, and providing for their families at or their death; in this way a short life may obtain, and leave to their heirs the benefit of a long one.

This Company will grant insurances on lives, on

the Mutual principle, to applicants upon their own lives, or the lives of others, for the whole duration of life, or for a limited period, at the rates specified in the tables, for sound and healthy persons. Also, any person in sound health may insure \$500 for life upon his own or his wife's life, or the wife upon the life of her husband, or the age of thirty years (and in like proportion for other ages), by paying 25 cents weekly, or on \$1000 by paying 50 cents weekly, the policy always remaining with the Company, with the premiums paid endorsed thereon; and in case of death they will be entitled to the amount thus insured, deducting therefrom the balance remaining of weekly payments, with interest, for the current year. No risk will be taken on a single life for more than \$5,000, until the profits of the Company amount to \$50,000, after which, according to the profits, the amount will be gradually extended to a sum not exceeding \$15,000.

The better to enable all persons to insure, the Company will annually issue Scrip certificates, of estimated profits, bearing interest at 6 per cent.—Whenever the accumulation of net profits of the Company shall exceed the sum of \$200,000, the excess may be applied from year to year, or semi-annually thereafter, towards the redemption of each year's certificates of scrip, in whole or in part, as may be determined on by the board of directors, priority to be given to the scrip first issued. The insured may borrow from the Company on his scrip, two thirds of the amount of the same at any time, which will enable him to use a portion of his profits for the payment of his annual premium, even before the redemption of the scrip. All classes of persons will thus be admitted and enabled to meet the premiums, and have the gain of the Savings Bank, with the profit on a large business, by an actual small investment or outlay of money.

All claims for insurance will be paid three months after satisfactory evidence of the death of the persons deceased is exhibited and approved.

Should it any time be desirable for a person to sell his policy, where it is for life, the Company will purchase the same at an equitable rate.

Policies insured at the table rates of premiums, are not to pass south of the Southern line of Virginia and Kentucky, or east of the Mississippi River, between the first day of June and first day of November; but can visit any part of the United States or Northern British Provinces, between the first of November and first of June. By the payment of an extra premium, insurances can be effected by persons who desire to reside South during the interdicted time.

All persons whose lives are insured by this company, are permitted to travel on any of the regular mail routes, (within the limits prescribed in the policy) or on any of the Northern or Upper Lakes, by steamboat or other common mode of conveyance.

Extra hazardous risks will be taken on persons going out or residing out of the limits of the policy, and embracing all parts of the world; also on all persons going to sea, and such other risks as may be specially agreed for, being more hazardous, to be expressed in their policies. The extra premiums to be computed upon equitable principles.

Insurances will be made on the lives of Military and Naval Officers, off or on duty, in time of peace, the premium to be settled according to circumstances of climate, locality, &c., as they may be more or less hazardous.

What can better illustrate the wise disposition of the Supreme Being, in the varying term of human life, than the certainty of the general laws that regulate its duration, and the reflections that arise from the contemplation of these laws operating constantly upon the human race? Life Insurance then rests upon the simple fact, that every individual of the human race has, at the period of his birth, a certain term of existence, which he will live through, or what is called the mean duration, or expectation of life at birth.

It is a question how such term of existence, or mean duration, is found. This is done simply by taking the number of years that have been lived through by a party from birth to death, and also of 1000 others born at the same time, and lying at all ages from 1 to 100 years old—the number of years thus lived by each person is added into one sum and being divided by the number of persons, the mean duration of the life of man is ascertained.

If it were found on trial, that on taking the result of the lives of 1,000 or 10,000 individuals, and deducting the mean duration; and then going through the same process with like numbers, and the mean duration of the latter differed widely from the former, it would be to no purpose to follow out experiments; but this is not the fact, and in nothing is the uniformity of the general laws of nature more powerfully exemplified, than in regulating the period of human existence. The result of experience is constant, that two bodies of individuals, each of 1000, living in the same country, and of similar occupations, have each a period of mean duration, which differs only a trifle from that of the other body. Apply this to insurance on life in the same body of persons; they pay a small sum or premium, annually, and the office, or Company, agrees to pay them annually a profit, and a certain sum at the death of each; as, by example, the average expectancy of life is found by experience, to be of a person in health of 25 years, 35 years more; and of 40 years 28 years longer; then by the tables of rates, the first has to pay \$20.40-100 a year during his life, to secure, \$1000 to be paid to his wife or children after his death; the second pays \$32, to insure the same; then taking the gain of interest, and other items, that make up the profits on Mutual Benefit, it is almost certain the amount of \$1000 insured will be much increased, when in the end it is to be paid to his heirs, all which is firmly established by the facts of experience. Life Insurance, therefore, on Mutual Benefit, is not a fictitious scheme to draw people into, for money-making purposes. Such an idea, if it exists, is most incorrect, and dissolved at once by the very fact, that this is a Mutual Benefit Company, and consequently any person taking out a policy, becomes a member by a small annual payment, and has a joint interest in its concerns, and a voice in its management. Founded on scientific principles, exemplified by experience, its real services then to all classes of persons, who are dependent on certain incomes, or salaries, professions, mechanical skill, or daily labor cannot be denied; and it has proved essentially beneficial to the families of such in event of death, and is therefore an institution ranking among the noblest works of benevolence in the world.

Such being the equitable and beneficial principles on which Mutual Life Insurance is established, it presents a most suitable and favorable means of providing for the endeared and dependent lives of children; for what is the situation of a man, who, for the gratification of his affections,

surrounds himself with a wife and child, and lives in the enjoyment of those valued blessings, and knowing that in an instant, the cessation of his life may throw them into a state of destitution! The neglect, then, of such a cheap and certain provision, is gross impudence; for it is not mere a man's absolute duty, to provide while he lives the daily bread for his family, than it is a neglect leaving them to suffer penniless misery in the event of his death. It is then a religious as well as moral duty, to be easily accomplished by weekly, monthly, or yearly earnings—and this Life Insurance of Mutual Benefit, is the protection against such dreadful evils.

The observations and explanations above made on the principles of Life Insurance generally, and particularly the great and very superior advantages exhibited to the public by insuring in this Mutual Benefit Company; the credit which policies will give to men in trade, the gain it may be to all classes in their business vocations, and the duty of all to provide for their families, should induce every person to give this subject a careful consideration, remembering the injunction of Scripture, that "if any provide not for his own, and especially for them of his own house, he hath denied the faith, and is worse than an infidel."

## Hyer's Pills.

The American Improved Hygienic Vegetable

SAFE, CHEAP AND EFFECTIVE. This medicine makes no pretensions to miraculous powers, the raising of the dead, or to immense and astounding sales daily and hourly, after the most approved method of the times; but bases all its claims upon plain common sense principles, as a simple and to nature in restoring the human system to its proper tone and action, when by carelessness or unavoidable circumstances it has become deranged or debilitated, and asks simply a faithful trial as a test of its curative properties. During the last twenty years it has worked its way into extensive use, wholly upon its own merits, by commendation from individual to individual, not having been advertised for more than twelve years till within the past few months—save occasionally in a journal of which the present proprietor is Editor. The increasing demand, however, has measurably compelled greater attention to its business, and agencies are now being established throughout the country.

A faithful trial of a half dollar or dollar package is almost certain to secure use in every family where it is introduced, where medicine is needed. The undersigned has used it in his own family for more than fifteen years—has knowledge of its approved use in many others, (for periods varying from months to fifteen or sixteen years,) as their only medicine, and knows it to be valuable in most of the complaints incident to the human system. But a long or extravagant commendation is not designed or needed here. Ten thousand mere assertions in its favor will not make it valuable, or satisfy reasonable persons without a trial; for the proof, after all, must lie in the use of it. Try it, then. Read, try, and then judge.

## The Good Things of the Season,

FOR

## Parties, Holiday Presents, &c.

WINTER evenings and YOUNG'S Variety Store form pleasant associations for the inhabitants of Newport. There is nothing scarcely that can contribute to the comfort of all, that cannot be obtained at this store, and all as low and a great many much less than can be bought elsewhere in Newport. For example, we will attach the following prices, and every article is warranted.

Western Apples from \$1 75 to \$2 12 per bbl; shell-tacks \$2 per bushel; peanuts \$1 02 per bushel; chestnuts from four to five dollars per bushel; almonds one shilling per pound; new raisins, figs, dates and currants 12 1/2 cts per pound; we sell these last named articles at wholesale prices. Prunes 20 cts per pound; grapes 25 cts; new citron 25 cts; preserved ginger \$1 12 per jar, or 30 cts per pound, in small quantities; candies and all kinds of confectionary cheaper than they have ever been sold at any other store in town, at wholesale and retail, always fresh and of the finest quality; for the truth of this we wish every one to come and judge for themselves.

This is no idle advertisement merely to draw people to my store to disappoint them, but a plain statement of facts, which all may ascertain by calling. Also several kinds of Cough Candy, warranted equal to any now in use, for the cure of all kinds of complaints arising from colds.

Fancy articles and toys of every description, in any quantity, such as silk purses, pocket books, cigar cases, pocket knives, scissors, razors, razor strops, hair, clothes, tooth, and shoe brushes, fancy work boxes, walking canes, dominoes, dice, conversation cards, French and Highland do, comb of all kinds, cologne, hair oil and pomatum, cigars, tobacco, and everything that is ever kept in a confectionary and variety store.

New sweet cider on draught or by the barrel.

## To all Lovers of Pure and FRAGRANT TEAS!

WILLIAM NEWTON,

150 Thames Street, Newport Rhode Island,

AGENT FOR THE

CANTON & PEKIN TEA COMPANY

Of New York.

THIS Company, although it cannot boast of being "The oldest Tea Establishment in America," does claim to have sold during the two years of its existence, more good, pure, and unadulterated Teas, and at lower prices, than any other similar establishment in the United States.

The following is a list of their retail prices, which will be found to be nearly the same as those of similar Companies. The only difference they claim is in the quality of the Teas.

The Teas mentioned in the above catalogue are put up in Quarter, Half and Pound Packages, made perfectly air tight, and warranted to be well worth the price marked on the label; if they are not found to be so, they can be returned at any time and the money will be refunded.

The Canton and Pekin Tea Company, although not the "exclusive vendors" of the justly celebrated "Howqua Mixture," can still accommodate their customers with it, at a price and of a quality which will bear comparison with any other.

The citizens of Newport and vicinity are respectfully invited to call at the above store, 150 Thames-st., and test the qualities of these Teas, as the company are confident, after purchasers make one trial, that an extensive custom will be secured.

## China Tea Company Agency.

M. FREEBORN & CO.,

22, Broad-st., Newport, R. I.,

AGENTS FOR THE

## China Tea Company.

THIS Establishment, the oldest and most extensive concern in New England, was originated in 1842, for the purpose of supplying the citizens with Tea, of every grade and quality. It has very peculiar facilities and abundant resources, unattainable by any other House existing, whatever may be their pretensions.

The following catalogue of Teas, at retail prices, are warranted sound,—like remarkable for extreme fragrant aroma, and extraordinary strength of flavor:

A comparison of their Teas with those of higher prices, is respectfully solicited, and they flatter themselves that the superiority of their article will prove a certain means of continuing to their establishment the very flattering preference it has heretofore enjoyed.

## Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it bakes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL.

PARTINE'S LOTION, Kidney & Horse Liniment, and Croapo's Liniment—for sprains, wind-galls, ring-bones, spavins, fresh wounds, stiffness of the joints, &c. in horses—a new supply of the above is received at R. R. HAZARD'S Near the Court House.

## Congress Water.
